Halifax Partly Destroyed by Explosion

An explosion on a French munitions ship, caused by collision with a Norwegian steamer carrying foodstuffs, occurred in Halifax harbor on Thursday morning, doing millions of dollars' worth of damage to property in wholesale section of the city and killing more than 100 people. No estimate as to the number of wounded is as yet given out.

The impact caused the ammunition in the hold of the munitions ship to explode, setting the vessel afire. Flames spread to the piers and adjoining buildings and not until a late hour were the fires throughout the city under control.

According to reports, about sixty per cent. of the city has been destroyed or greatly damaged. The Richmond district has been completely destroyed, while scarcely a building in the Dartmouth section remains intact.

Great damage was done to piers and shipping along the harbor front.

The Pass Oversubscribes Victory Loan

The following statement handed us by the district secretary, Mr. J. R. Smith, shows the amount of money raised in this district for the Canada Victory Loan 1917, which we feel will be of interest to our readers.

The secretary advises that it is impossible at this writing to give absolutely correct final figures, but promises that it will be done as soon as it is known officially as to how those who signed undertakings to pay cash have met their obligation.

In passing we should compliment the local captain and his team for the arduous manner in which they performed their pledged mission. During the period of the campaign, the local committee were overworked and overtaxed.

That no one who at all was considered to be in a position to subscribe was passed up, and as a result we find that Blairmore leads the list of the

Pass towns for number of subscribers, 343, which means practically a subscription from every home.

Much of the credit for the success of the campaign in The Pass district is due Mr. Hornbrook, of Calgary, through whose energies the district was organized.

Following is statement to date for the Crows' Nest district:

Town	Number of Applications	Amount
Coleman	304	\$80,500
Blairmore	343	79,000
Frank	148	31,300
Bellevue	117	30,150
Hillcrest	102	46,650
Total	1074	\$268,200
Collected by C.P.R. employees in district		\$900

Total to date \$269,100

In addition to the above there were \$18,500 worth of old bonds converted, which make the total for The Pass \$287,600.

Charlie McLeod Killed in Action

Word was received last week end, stating that Farrier Charles H. McLeod, of Medicine Hat, had been killed in action. Farrier McLeod enlisted with the 13th C.M.R. at Pincher Creek and was transferred to a draft from that battalion while located at Medicine Hat. At the time of enlistment he was a resident of Blairmore and a member of the local lodge of the I.O.O.F. He leaves a wife and two small children, residing at Medicine Hat, to whom we extend our sympathy.

Lundbreck Red Cross Notes

Saturday, October 24th, was a lively, busy day in Lundbreck, the schoolhouse being brightly decorated with flags, etc., where numbers of people had gathered for Lundbreck Red Cross branch were holding a rummage sale. Mr. Houston, of Mayeroff, was taking the part of auctioneer and proving himself an entertaining and very capable salesman. Red Cross ladies were working hard, assisting in the sales and dispensing refreshments, the result being that \$200.00 was raised in aid of the Red Cross.

Owing to the lack of time to offer them for sale, the Lundbreck branch has on hand a number of very interesting books (fiction mostly), all in good condition. These are for sale from 10 cents to 50 cents each. Also a nice baby's green-upholstered Sleigh and an up-to-date Fireless Cooker, almost new. First reasonable offer will be accepted for either of these. The money goes directly to the Red Cross.

THE SECRETARY

Blairmore Patriotic Fund

Following is a list of contributions received by the Blairmore Branch of the Canadian Patriotic Fund for the month of November and the total amounts from January 1st to November 30th, 1917:

WHAT CANADA HAS TO OFFER TO THE SETTLER AND INVESTOR

THE BEST FARMING PROPOSITIONS IN THE WORLD

The Editor of the Economist, Published at Chicago, after a Recent
Trip Through the Western Provinces, Writes Enthusiastically
Of the Splendid Opportunities Western Canada Offers

The giant of the north stretches his thirty-seven hundred miles from Atlantic to Pacific and grows under his own weight of wealth, and, as it is potential, is growing so conscious and so lifting his head for recognition as among the great of earth. Canada deserves unstinted praise for its part in the present war, and despite the large number of troubles on the streets of the cities, courage and purpose are at a high pitch. The Canadians are game, and their loyalty to the home government is among the marvels of the time. Any suggestion of failure in that loyalty appears to be unknown in the Dominion of Canada. The primary reason for this is not the undoubted excellence of the government of Great Britain but in the fact that the Canadian people are left to manage their own affairs. "We are the freest people on earth," is an expression often heard from the lips of men who know what the other governments are. As to the provinces, they are constantly expanding, and they appear to have their local affairs almost exclusively in their own hands. The theory of self-government is perhaps as well carried out in Canada as in any part of the world. In respect to the whole Dominion there is an amount of intelligent study of resources and opportunities that perhaps does not exist anywhere else. Corporations, individuals, government officials, are constantly exploring, mapping, and inviting man-kind to come and see. Many are coming to stay, as we know from the migration out of the United States.

The great potencies are the quality of the English race, particularly as expressed in British rule, an enterprising government of the Dominion itself, and the railroad companies, notably the Canadian Pacific, which to use its own expression, "spans the earth" with its eighteen thousand miles of road and its many steamships. These forces act in concert and find lines of effort in all sorts of subordinate departments and bureaus which have in their imagination the opening of new areas, colonization and enrichment of capital. Study of the whole is dominant in the people's mind to have grasped the idea that their own individual prosperity is involved in the common weal. The banking system is one of the most powerful means of promotion, and safeguards against misfortune. Americans have admired this system these many years and some of its principles are embodied in our federal reserve plan. These banks appear to get closer to the people than those of other countries. A liberal policy is followed in the establishment of branch banks. One finds hardly a hamlet without a representative of one of these well-known institutions, usually housed in a building commanding respect by its architecture, though all about it may be the crudeness of a new country. The greatest advantage of this branch system over that of individual institutions such as we have in the United States is in the name and the high authority of the parent institution.

With Chicago men of affairs, particularly those on the board of trade, the time has long gone by for considering Canada so boreal as to be forbidding or even a little forbidding. The wheat of Canada is among the best raised in the world and land eleven hundred miles north of this city yield the cereal liberally. The mention of the fifty-ninth parallel, to one familiar with the weather trade does not chill him. Then there are climatic conditions which soften temperature in areas far north. In Vancouver temperatures as low as in midwinter rarely occur, and that city and its neighbors, Victoria, places of residence are extremely inviting. Far inland the chinook comes in winter to ease the cold weather. We, therefore, should not apply the Medicine Hat test to everything in the Dominion. One cannot yet say how great is the area of arable land in the Dominion, for there are large sections which have not yet been opened and the quality of which is a matter for further investigation. The statement has been made that of the 3,700,000 square miles of Canada only 100,000 square miles is fit for farming. This, however, excludes areas in lake and other areas which are

questionably come in later on. Broadly speaking, the farther north the locality the shorter the season, the rapidity of growth is somewhat less, and the growing season is somewhat less than 18 hours of daylight has an effect on a plant than 10 or 12 hours.

It is not, however, consideration of this sort that have caused the great influx of migration to Canada. Only a small percentage of the land capable of growing wheat and other grains is now sown to them. The capacity for production is demonstrated this year by a yield of 250,000,000 bushels of the major cereal. This places the country well up in the competition for supplying Europe with wheat. Persons who yet all can remember when Canada was negligible. The branch of agriculture is susceptible of expansion to a yield equal to the present magnificence. The price of land is the thing with which a farmer seeking new fields—\$20 to \$50 per acre, comparing with our \$100 to \$300. This explains why, leaving the old folks at home, the younger men of the farmer's family in the central west

have taken up in the Dominion. It matters comparatively little to them the migrant has capital or not. The Canadian Pacific, to which the government originally gave 25,000,000 acres of land, not to mention a considerable amount of cash and some old railroad lines, tells this story of corner land, taking a small payment down and subsequent payments on something like the Credit Foncier plan. Some opposition has been shown in our western states to this migration. But it appears to be useless. The appeal of cheap land is irresistible to men under certain conditions.

The war has drawn Canada and the United States closer together. As one puts it, "Before the war we were cousins, now we are brothers." Canadians express the profoundest appreciation of what we are doing in the direction of subduing German autocracy. It all looks big to them, and big it is and earnest, but this Canada has done what we have not yet done, poured out precious blood without stint. A sign of the co-operation between these two countries is the presence in the states of J. S. Dennis, one of the highest officers of the Canadian Pacific railway, who has charge of recruiting for the British army in this country. Dennis is a thorough Canadian and has his special interest in agriculture, and is considered the first authority on that subject in the world. The Economist.

The Conscientious Objector

Reclused Viewpoint of Pacifists Is Point of View of the Conscientious Objectors

It seems to me that the conscientious objectors are suffering from the same mental malady that afflicts the pacifists. In one case the patients consider themselves to be so much men in sensibility and truth to their beliefs that they are unable to do the good of others than of themselves.

When I think of the stupendous egotism of the Germans, I can't get any further than the puzzled feeling that I had at the beginning of the war. This same puzzled, baffled feeling comes when I try to get the point of view of the conscientious objectors. How can they be sure that they believe in non-resistance when there are so many brave men between them and danger? How can they be satisfied to be one of the diffident, the "good" of things as they ought to be, while their brothers are serving the "God of things" as they are?—Ruthell in New York Outlook.

Not a She
"What ship is that and where's the bound?" roared the skipper of the Sapho.
"A vessel mind where we're bound!" roared back the skipper of the craft to windward. "And don't call this ship short! This is the mail boat." Detroit Saturday Night.

Bringing East And West Together

Cultivating a Better News Service Between All Points in Canada

While some may doubt the wisdom of government subsidizing the press, there are probably very few who are prepared to find fault with the grant of a 24-hour leased wire-service from Halifax to Victoria, Canada, with its immense distances and its tendency towards provincialism, needed this service and, while perhaps it might have been desirable if it had been possible for the press to have financed the scheme itself and kept free of any suspicion of receiving favors from the government, yet it is a good thing that the service has been established in any case.

It is interesting to note that it was very largely the papers with a leaning towards free trade which were in the forefront in petitioning for assistance. The argument that carried weight with the government was that it was impossible—and yet nationally desirable—for the Canadian press to maintain a news service across the barren stretches lying between New Brunswick and Quebec, Ontario and Manitoba, Alberta and the coast. American manufacturers were coming in from New York, St. Paul and Seattle, but the Canadian press was not circulating widely to physical and other disabilities. In other words, the Canadian industry was finding it difficult to compete with the American industry. We do not hear that any free trade newspaper objected to the formation of a protectionist policy for the handling of Canadian news. True, there has been no barrier erected to the importation of American news, but by their tacit admission that a government subsidy was necessary so that the desirable object of building up a Canadian news system might be achieved, the press of the country unquestionably admitted that the basic idea of protection is good.

Apart from this view of the matter, which is merely an aside, we are glad as manufacturers that the service has been established. It will tend to give the agricultural interests of the west a clearer understanding of what is going on in the east and vice versa, it will keep the manufacturing interests of the east better informed on western happenings. If the real purpose of the scheme is carried out we will be reading about each other every day; we will be becoming better acquainted and in the event of a war, the alliance between the two countries will be all the more solid.

Boche Kicks Girl to Death

Eleven-Year-Old Child Killed by German Inspector

How a German inspector kicked a young girl to death in the Halle Volksbath. The choleric disposition of Provincial Inspector Stertz, of Leitstank, has led to a painful and tragic occurrence. A number of young women and girls were employed in the locality in transplanting turnips, among them being the eleven-year-old daughter of a brewer's assistant named J. S. The little girl being somewhat careless in her work, the inspector, after angrily calling her a "little sow" kicked her repeatedly with his heavy boots until she lost consciousness.

Blinded Canadian Heroes Making Good

Serge-Major Middlemiss Writes of the Success of St. Dunstan's Course in Suitable Occupations

Serge-Major Robert Middlemiss of the King's Own Scottish Borderers, through whose blind eyes thousands of Americans of their progress. They are all doing well, he declares, and those who have been trained and are now settled at work in various occupations they were taught in the school are very successful.

Mr. Harry Turner, a Canadian newspaper man who was blinded in war and retained at St. Dunstan's is now working on a Saskatoon paper, others are masseurs, stenographers, dictaphone operators and insurance men.

No Half-Way Houses In Ending the War

Choice of Both Sides in the Contest Is Surrender or Defeat, Says London Times

A London Times editorial headed "Futile peace schemes" contains the following passages: "There is not the slightest intention or the slightest wish on either side of the Atlantic to accept mediation. The nations opposed to Germany know well what they are fighting for. They mean to utterly end the system which forced year on a peace-loving world and which as they clearly perceive would inevitably lead to a renewal of the conflict upon a scale still more awful were it not now torn up by the roots. These roots are still deep in the minds of the military classes of Central Europe and their deluded dupes. The war, Tiritz said, must prove that England has not been beaten Germany. The war, the allies reply with one accord, must prove that England has not been beaten Germany. There is no place for a compromise, or the good end of mediation. The choice to both sides is surrender or defeat. There can be no half-way house."

Record Price for Alberta Farm Land

What is probably the record price for a few days ago when the Noble Foundation, of Nobleford, Alberta, sold a portion of its Barons farm for \$50 an acre. Mr. Noble, it will be remembered caused considerable talk all over the continent last year when he harvested from 1,000 acres an average of more than 33 bushels of wheat to the acre, and his above price was a fair one. Mr. Noble is acquainted with the conditions of the country, and the sale is a good indication of the value of land in Alberta.

CANADIANS OCCUPY MANY POSTS IN THE STRUGGLE FOR FREEDOM

FITTING EFFECTIVELY IN BRITISH WAR MACHINE

Gallant Sons of Canada Can Be Found in Every Branch of the
Imperial Service, Doing Their Bit in Various Capacities, and
Lending Great Assistance in Winning the Fight

The following article, contributed by Rowland Hill from war correspondents' headquarters in France, is issued by the militia department: "Canada's part in the war is not covered by any means to the splendid troops under General Currie, now beleaguering Lens. There are scores of officers and men in various imperial services fitting effectively into the British machine. In scores of places one would never suspect there are Canadian battalions—their numbers are now legion—which in the aggregate easily make up a large force. Smart young Canadians are naval officers in every port that feeds the fleet, keeping to the tradition of the British navy. Then, too, there are the flying men, in both services, places one would never suspect there are Canadian squadrons—their numbers are now legion—which in the aggregate easily make up a large force. Smart young Canadians are naval officers in every port that feeds the fleet, keeping to the tradition of the British navy. Then, too, there are the flying men, in both services, places one would never suspect there are Canadian squadrons—their numbers are now legion—which in the aggregate easily make up a large force. Blaimore, Alta., Fri., Dec. 7, 1917

Proposal to Cut Down Alberta's Fire Losses

The greatest losses caused to set-
tlers and ranchers in the timbered
districts of Alberta through forest
fires carelessly started, will be largely
obviated if the Canadian Forestry
Association of Ottawa is successful in
its present efforts with the Govern-
ment of Alberta.

Last year the Association, which
has a large membership in the prairie
provinces, secured the ready co-
operation of Saskatchewan and Mani-
toba governments in passing new
legislation putting a stop to the set-
tling out of settlers' clearing fire
unless the settler took reasonable
precautions of safety. In order to
make the law fair to all, municipal
forest guardians and Dominion fire
rangers were given authority to issue
permits for all clearing fires started
in the vicinity of timber. Unless he
obeys the precautions for safeguarding
his fire against spreading, the
settler in Manitoba and Saskatche-
wan is liable to a fine. Not only the
settlers but all classes of citizens are
placed beneath the safety rules.

It is now proposed that Alberta
should pass a similar law and give
it thorough administration. The
latter involves very little expense, as
the services of the Dominion fire
rangers are available without cost in
districts of greatest hazard.

French War Orphans' Fund

Blaimore, Alberta,
December 3rd, 1917.

The Editor,
Blaimore Enterprise,
Dear Sir:—The amount of 2100 francs

has been sent to the French Col-
lateral General at Montreal as a subscrip-
tion to the above fund.

This amount represents collections
made as follows:
Bellevue Mine Officials \$200.00
W.C.C. Ltd. Office Staff, Blaimore 100.00
\$300.00

The official receipts will be handed to
you for publication as soon as received.
Yours Truly,
West Canadian Collieries Limited,
Per W. H. Chapell, Jr.,
Chief Accountant.

To Whom It May Concern

In order to put a stop to a malicious
rumor that has been in circulation in
Bellevue to the effect that the under-
signed is of Turkish origin and main-
taining sympathy with the Turks in the
present conflict, I beg to state in con-
tradiction that I am an honest Turk then
Hind is an Englishman. Such rumor
is not intended for any good purpose,
and originated solely from malice or
jealousy, and I take this opportunity of
warning any parties from repeating
same.

Signed: Roger Haddad.

Central Union Church

Service on Sunday at 11.15 a.m.; and
7.30 p.m.
Sunday school at 10.30 a.m. and 2.30
p.m.
Pastor, Rev. James Fulton.

Anglican Church

Sunday, December 9.—Service will be
at 11 a.m., conducted by Mr. Webb, lay
leader of the St. Paul's Mission. Blood
however, who has returned from active
service at the front.
Sunday school at 2.30. Superintend-
ent Mrs. F. Wright.

Frank Methodist Church

Service every Sunday at 7.30 p.m.
Sunday school at 2.30.
Rev. W. T. Yocco, Pastor.

The majority of those who at-
tended the Methodist hall on Mon-
day evening, at Frank, realize that
they met with one with whom they
never before did meet. Rev. T.
Powell's lecture "Other People
I have met" was a treat and every-
one enjoyed it.

Death of H. G. Goodeve

The death occurred rather
suddenly at Coleman on Mon-
day morning at 1 o'clock of H.
G. Goodeve, proprietor of the
Goodeve Hardware Company.
Mr. Goodeve had been suffering
from asthma, and but very re-
cently his condition became
such that grave fears for his
recovery were entertained. On
Saturday night he took a turn
for the worse while serving
customers in the store, but
seemed to rally through the
Sunday in an improved condi-
tion and retired at the usual
hour on Sunday evening. He
is survived by a wife and one
child in Coleman and other
relatives throughout the coun-
try including James Asldown,
of the Asldown Hardware
Company, Winnipeg, and Nel-
son, who is uncle of the de-
ceased. Mr. Goodeve had
reached the age of forty four
years, was of an amiable dispo-
sition, and highly respected by
all. He was a prominent mem-
ber of St. Alban's Anglican
church and of the Masonic Or-
der.

Funeral took place from the
residence to the Coleman ceme-
tery on Wednesday afternoon,
where the last rites were ad-
ministered by the Rev. H. Clay
for the church and the chap-
lain of the local Masonic Lodge.
A large concourse of citizens of
Coleman and adjoining towns
were in attendance to pay a
last tribute of respect to the
deceased. With the bereaved
wife and other relatives we ex-
tend our sincerest sympathy.

An EDITOR up north decided
that he needed an automobile and
after considering the subject a long
while came to the conclusion there
were only two kinds for him the
Ford and the Can't Afford after
making last month's collections he
came to the conclusion that there
was only one kind.

SYNOPSIS OF CANADIAN NORTH WEST
LAND REGULATIONS

THIS sale land of a family, or any male over
21 years old, may homestead a quarter-
section of available Dominion land in Manitoba,
Saskatchewan or Alberta. The applicant must
appear in person at the Dominion Lands Agency
or Sub-Agency for the District. Entry by proxy
may be made every Dominion Lands Agency
but not Agency on certain conditions.
"Ditto" his months residence upon such section
of the land in each of three years. A
homesteader may live within nine miles of his
homestead with a farm of at least 40 acres, or
certain conditions. Inhabitable houses in re-
quired except where residence is secured
by leasehold.
Leasehold may be substituted for cultivation
and residence.
In certain districts a homesteader is good
tending and raising stock on the land. A
settler may receive a homestead patent, also to
his homestead. Price \$20.00 per acre.
The homesteader must reside on the land for
three years after receiving homestead patent; also to
his homestead. Pre-emption patent
may be obtained as soon as homestead patent
is obtained.
A settler who has exhausted his homestead
may receive a homestead patent for other
land districts. Price \$20.00 per acre.
Ditto his months residence in each of
three years, cultivate 50 acres and erect a
house on the land.
W. W. CORY, C.M.G.
Treasurer of the Dominion Lands Agency.
N.B.—Unauthorized publication of this ad-
vertisement will not be paid for.—Eds.

Private Parties of Blaimore, are reported in Wednesday's casualty lists as suffering from wounds.

Cowley Happenings

J. Kennedy and H. D. MacMillan are Calgary visitors this week.

R. R. Buchanan and family have moved to their new farm at Lark, B.C.

The Tennessee school is now closed, owing to the resignation of Miss Miner.

The weather is several degrees colder this week with considerable snowfall.

Mrs. E. Tustian is spending several days in town, visiting friends and relatives.

Mr. and Mrs. E. M. Bowerman left this week for California. They will spend the winter at their home there.

A packing case of hospital supplies was shipped to headquarters of provincial Red Cross by the Red Cross Juniors on Saturday last.

Many local stockmen are shipping cattle these days, despite the stormy weather. A trainload left Cowley for Chicago on the 6th.

Mrs. J. Morgan is now in Rochester, Minnesota, where she will undergo an operation. We join in wishing Mrs. Morgan a speedy recovery.

At the regular nomination meeting of the Village last Monday night, the old council, Messrs. Morrison, Tustian and MacMillan were unanimously returned to office for the coming year.

The school board announces the re-engagement of Mr. Hargrove as principal, and of Miss L. M. Demster as teacher of the junior department of the village school for the coming year. Their work has been very satisfactory during the past year.

The Christmas entertainment to be given by the village school will take place on the evening of the 21st in the town hall. A splendid programme is being prepared, and we are looking forward to this affair as being the best of its kind ever given here.

On Friday night last a dance was given at the Old Church schoolhouse in aid of the Red Cross. Some cak' was auctioned off, the bidding going very high, one cake fetching \$11.50 and others selling well. Altogether \$55.00 was realized for this much needed cause.

The death of Lauretta Bennett occurred very unexpectedly on Friday evening last at her home, she having been slightly ailing for only a day or two. The funeral took place on Monday from the Presbyterian church to the Cowley cemetery, where interment took place. The casket was heaped with cut flowers, showing the regret and sympathy of Lauretta's many friends. Although in her thirteenth year, she had shown an aptitude in several arts. The sympathy of the whole community is extended to her parents and sister Bessie, who are left to mourn her early demise.

A wise old bird is the pelican
Whose bill can hold more than his
He can take enough food in his beak
To last him for a week
Who can't see how the helican

Bellevue Happenings

Mrs. George Skelding has been laid aside through sickness for the past week.

Mrs. Hugh Hutton, who has been in Fernie for some time, returned home this week.

Mrs. A. Amos was operated on at the local hospital on Wednesday evening for appendicitis.

Mrs. William Patterson was up from Lethbridge the week end, visiting with Mrs. McLean.

Miss Maggie Davidson, who had been away for some months, returned home on Wednesday last.

The sum of ninety dollars was realized from the bazaar given in the Methodist church on Tuesday evening last.

Frank Roseley has been appointed postmaster for Bellevue and started in on his duties on December 1st.

Oscar Gosse came down from Wain, Alberta, to visit his daughter, Miss E. Gosse, who has been sick for the past week.

Fred Chappell moved the stock of the Bellevue Mercantile Co. into the Hart block this week, and is now in a better position to handle his ever increasing trade.

The wrestling match given in the Workers' Hall on Tuesday night between Jack Saramaki and Bill Duke resulted in a draw, each getting a fall after about one hour of good wrestling.

The people of the Camp wish through the columns of the local paper to extend their sympathy to Mr. and Mrs. Bailett in their bereavement caused by the loss of their daughter, who died at Pincher Creek on November the 30th, after but a brief illness. The remains were laid to rest on Monday, December 3rd, at Pincher Creek.

Local and General

Remember the "Drama of the Gods" feature to be presented at the opera house on Tuesday night next, and the matinee in the afternoon for ladies.

D. R. McIvor will address public meetings at Blaimore opera house on Friday evening and Coleman opera house on Saturday evening, in the interests of Laurierism.

The fair wage commission paid Blaimore a visit this week, and incidentally required into the cost of certain commodities retailed to the consumer, from local stores. We believe the members of this commission understand their business as thoroughly, for two of them refused to take a second course at the dinner table, and instead treated their friends to imported cigars.

We beg to draw the attention of our readers to an advertisement elsewhere in this issue of the P. M. Brett & Co. Calgary, who are putting on a big combination sale of high class Shorthorns, Clydesdales and Hackneys at the Calgary Exhibition Grounds on December 11th and 13th. Messrs. Brett & Co. guarantee that only the very best live stock will be offered.

S. T. Marshall, non-partisan candidate for the Macleod Federal riding, is a farmer of note in the Staveland district and has a host of friends throughout Alberta, to whom for the most part he is known as "Steve." He makes no claim to platform ability, having studied elocution more than oratory, but as a farmer's candidate he can put up a whole of an argument why he should be elected. Those who hear him will be impressed with his intimate knowledge of the farmers' need in the way of legislation, as he views everything from the farmer's standpoint, something rare in this western country.

Report of Blaimore

School for November

Primary Department, Alice F. Royle, teacher—Enrollment for month 43, aggregate days' attendance 985.5, average attendance 44.79, percentage

of attendance 91.4, rates 10. Perfect in attendance and punctuality—Leon Steiner, Billy Robbins, Leonard McDonald, John Henson, Ronald McDonald, Irene Sartoris, Billy Hamilton, Ruby Howe, Gabrielle Deurbrouck, Percy Thibodeau, Aletta Link, Jimmy Joyce, George Hinds, Flora Lomeli, Charlie Nemara, Julia Arent.

Grade I, and E. M. Foster, teacher—Number of pupils enrolled 36, average attendance 32.88, percentage of attendance 91.33, rates 9. Pupils perfect in attendance and punctuality—Violet Sinclair, George Christophers, Cyransto Schmidt, David Kemp, Julia Duth, Leah Bouthiller, Peter Stewart, James McVey, Barbara Filippini, Ralph Mancini, Grace Joyce.

STANDING.
Grade I, Division A—1st Arne Link, 2nd Isabelle Ray, 3rd Jean McCollom.

Grade I, Division B—1st Joe Nemara, 2nd Julia Matto, 3rd Peter Stewart.

Grade II, Division C—1st Julia Duth, 2nd Assunta Filippini, 3rd John Henson.

Government Farms For Training Stations

Suggestion of Senator Foster Widely Endorsed Throughout the Dominion

The suggestion made in the senate by Senator George G. Foster that the experimental farms throughout the Dominion be made into training stations for returned soldiers in agricultural work, or who have been farmers before the war, is not an entirely new idea, for the military hospitals commission has already placed schools for training at the farm at Truro.

This additional service which experimental farms may be able to render in supplying a training school for would-be farmers is endorsed widely, and arrangements have been made for accommodating some returned soldiers at the experimental farms at Ste. Anne de Bellevue, and in the neighborhood of the college at Guelph, Ontario.

A committee in the senate will be appointed to consider the proposition further.

How Many Hun Submarines Lost?

Germany Losing Fast Ships at Rate of Four a Week

From January to the present date the British navy has destroyed twice as many German submarines as during the whole of 1916. Mr. George Minard, author of the latest estimate, the number destroyed in 1917 is not known, but it is believed to be approximately 75 under-water vessels. Assuming this to be correct, Germany has already lost more than 400 in less than a year, or at the rate of about four a week. It is no wonder that the loss of steamers through the activities of Hun pirates has been so greatly reduced. At present the loss per vessel in tonnage is less than one-third of what it was in April last, when the U-boat campaign was at its height.

Vancouver World.

At least

In the getting out of the first number of a new English magazine in Tokyo recently a proofreader discovered that the number 4000 had been printed 39,000. On inquiring through an interpreter how such an odd mistake could have occurred, the proofreader said: "I can imagine a mistake of 20,000 or 30,000 being made, but how could he get 39,000 instead of 40,000?" The interpreter's reply was: "I had no '4' at the moment, so I calculated that 39,000 would be nearer the right amount than any other figure."

Feigned Blindness And Was Liberated

French University Professor Secured Release from Germans in Remarkable Manner

A professor of the Sorbonne, the great French university, Paris, recently secured his release from a German military prison by a remarkable exercise of will power. He fell into the hands of the Germans in 1915. Deciding at once to get free in some way, he feigned blindness.

From that time it was impossible for the German military doctors or eye specialists to catch him off his guard. They subjected him to the severest tests known, such as midday apparitions of unfamiliar and unexpected objects, sudden transitions from complete obscurity to dazzling light.

He was tortured by scientific ways of verifying his sightlessness, but never once departed from a fixed blank gaze, presenting always an absolute immobility of expression in his eyes. He was finally declared totally blind and included in a recent exchange of permanently disabled prisoners.

Naperville, Ont.

Joint Action

For Food Control

A Reduction in Consumption of

Wheat, Beef and Bacon

Is Essential

Joint action to secure essential

commodities for export while

prohibiting the general sale of wheat,

beef and bacon in the Dominion is

essential if sufficient quantities are

to be released to export to Great

Britain and our European allies. The

British government has prohibited

the export of wheat, butter, lard, and

lard except under license. The

British food ministry has established

in the United States for these pro-

ducts, and makes all purchases

through this agency, beginning Sep-

tember 3rd. The establishment of

this agency insures international ac-

tion by the British, Canadian and

Canadian food controllers to

eliminate the speculation in food due

to free individual competition in

Britain, France and Italy, which has

resulted in the exorbitant prices

have been paid, both there and

in America. The British

Canada must save 12,000,000 bush-

els of wheat this year.

Every careful and observant fol-

lowers knows when her child suffers from

worms. She also knows that if some

remedy be not speedily applied much

harm will result to the infant. The

most reliable and effective remedy

is Miller's Worm Powder. They drive

worms from the system and set up

the child's progress thereafter is

painless and satisfactory.

Current Interest

"What are you reading?"

"A tale of human tragedy."

"Wasting your time on fiction?"

"No. This is expert advice on how

to plant potatoes."—Washington

Star.

Minard's Liniment Cures Diphtheria.

Merchants Banish

All-Wool Clothes

Trade in U.S., Pledges It to Re-

serve Best Stocks for

Three hundred men, representing

the woolen industry of the United

States, met in New York and after

listening to an address by Charles

Eisenman, of the committee on sup-

plies of the council of national de-

fence, pledged their factories and

their resources to the whole-hearted

support of the government.

Hereafter, if the plans adopted are

carried out, the way in which the

citizens of the United States will

be able to get all wool garments will

be by joining the army or navy. It

was resolved at the meeting to re-

tain all the wool necessary for the

armed forces of the United States

and to take out the remainder with

substitutes for civilian wear.

According to the resolution the

woolen dealers will place on the

market this year, "in so far as may

be necessary, a material made up

of our respective equipments will per-

mit of fabrics containing a material

percentage of other stocks than vir-

gin wool.

The resolution also voices the

determination of dealers "to dis-

courage the use of wool for purposes

other than are essential for the

comfort and health of the civilian

population."

In this project the government is

asked to co-operate with the wool

men. The present shortage of wool

was also discussed. To relieve this

shortage the committee suggested

that the government arrange with

Great Britain to release for shipment

this country from 200,000 to

300,000 pounds of the Australian

and New Zealand wool, which she

has stored up at present, refusing to

export it despite the long overdue

orders from American manufacturers.

He Will Have to Hurry

The Kaiser, it is reported, has

been forced to sell a number of his

valuable jewels. The war will be over

when he decides to let his crown go.

—Detroit Free Press.

WHEAT YOU? EZEEMA!

Would you like to end that terrible itching, that burning pain; to heal those horrid sores? You have tried all sorts of fatty ointments, lotions and powders. But then aside now and give Nature a chance as represented by Zam-Buk. Zam-Buk is made from herbal es-

ences; is a natural healer. Is not something you have to tend to the end of the world, for and pay a heavy price! Every druggist will sell you Zam-Buk and for five only. Just give it a fair trial and incidentally give yourself ease by the quickest route. See name on box.

Zam-Buk

Wartime Courting Methods

Winning Hearts and Willing the

Kaiser at the Same Time

The school girls in Wichita have

renounced candy and ice cream for

the duration of the war and have

warned their best fellows that when

they call, they are to be met by

something besides candy when they

come to call. We have been accus-

tomed to laugh at Mr. Macky Peg-

gotty by stealthily leaving oranges, um-

brellas and legs of mutton behind

the kitchen door as marks of his af-

fection. But there will be no oc-

casional laugh at the "willing" young

men of Wichita if they choose the

similar method of winning hearts

and walloping the Kaiser at the same

time.—Kansas City Star.

Mothers Value This Oil—Mothers

who know how suddenly cold may

seize their children and how neces-

sary prompt action is in applying re-

friger, always keep at hand a supply

of Thomson's Electric Oil. Child

experience has taught them that there

is no better preparation to be had

for the treatment of this ail-

ment. And they are wise, for its

various uses render it a valuable

remedy.

Holland Feeds Germany

Notwithstanding German Militarism

Has Long Been a Menace

to Dutch Independence

A very clear and convincing state-

ment of the conditions under which

Germany has been feeding the

the New York Times by Mr. John

G. Van der Veer, the London editor

of the Amsterdam Telegram. The

figures show how certain traders

have derived immense profits from

selling supplies to Germany even

though the latter were badly need-

ed. "The Netherlands," says the

paper, "with Germany for the

years 1915 and 1916, was some

times greater than the trade with

England, though England has always

been one of Holland's best custom-

ers. Mr. Van der Veer says that the

majority of Dutchmen do not favor

this policy, not only because it en-

dangerous commercial relations with

Germany, but also because German

militarism has long been a menace

to Dutch independence. The de-

struction of Germany on Holland

has long been notorious, and that

country would have been badly

offended as readily as Belgium had

it been for the interest of Ger-

many to do so. If Dutch sym-

pathy with the allies is as general

as Mr. Van der Veer says it is a

pity that it has not found more ade-

quate expression. Meanwhile the

States cannot be expected to take

practical account of it by hitting

the embargo if it been driven to the

on Dutch commerce from this coun-

try for our own and our allies' pro-

tection.—Philadelphia Public Ledger.

Corn cannot exist when Hollo-

way's Corn Cure is applied to them,

because it goes to the root and kills

the growth.

Indians in the Northwest are more

prosperous and healthy than they

were years ago. During 1917 the

Indian commissioner received sev-

eral reports from sub-inspectors in

the northern wilds. Practically no

sickness and no sign of shortage

of food was noted. A year ago special

arrangements were made with the

Hudson's Bay Co. to feed the In-

dians to prevent starvation. Fur-

bearing animals are more plentiful

and the trading posts are paying a

better price for skins than they were

previously.

CUTICURE HEALS ITCHING BURNING

Rash On This Little Baby

Over Face and Head.

Quite Disfigured.

"When my baby was four months old

she had a rash all over her face and

head, and was quite dis-

figured. Her skin was

flamed and sore, and itched

and burned and the rash

spread into large

eruptions, making her

cross and fretful. The

doctor would not get any sleep

"My husband bought a

box of Cuticure Ointment and a cake

What Is Winter Comfort?

A Comfortable Temperature Appears to Be a Matter of Habit

Up to a certain point the temperature in which we like to sit is essentially a matter of habit. To a Scotchman, a temperature of 58 degrees Fahrenheit is the same as a temperature of 68 is to an American. The public school rooms in Scotland were accustomed to be kept at

ALBERTA'S GREATEST DAILY

The War

DAY by day the grim fight for freedom goes on. Who among us is not interested in its progress? Many are vitally concerned. Fresh news, authentic news, is demanded. So there is maintained at immense cost a vast system of news-gathering. Its product is supplied to those newspapers who can afford to buy it. The price is high. Since the world awoke to the awful tragedy of the war THE HERALD has spared neither effort or expense to supply its readers with a full, authentic War News Service.

Briefly, The Herald carries more real news than any other paper published between Winnipeg and the coast.

EXCLUSIVELY, THE HERALD PUBLISHES—Special cable reports by Windermere and McKenzie, both closely in touch with Canadian troop happenings at the front. Also the full news service of the Canadian Press, Ltd., as that of the United Press.

SPECIAL TRIAL SUBSCRIPTION OFFER
4 MTHS. \$1

The regular subscription price to The Herald is \$4.00 a year by mail, but if you cut out this advertisement and send it with your name, P.O. address and ONE DOLLAR (\$1.00) to the Circulation Manager, The Herald, Calgary, you will receive The Herald daily for four months.

OF LOCAL AND GENERAL INTEREST

A ring on the finger is said to be worth two on the phone.

Pincher Creek is advertising for a teacher for Grades 6, 7 and 8.

Dr. A. de Martigny has left Pincher Creek and gone to Cardston to practice.

Clareholm is erecting a new opera house, with a seating capacity of 500.

Mr. and Mrs. William Robinson, of Burmis, spent Tuesday and Wednesday in town.

If there is such a thing as an untold agony, it is the secret a woman is compelled to keep.

W. Shaw, mine inspector, will leave for his new field of labor in the Calgary district on the 15th.

Miss Todd has closed her millinery parlors in Blairmore for the present and moved back to Fernie on Monday.

The military police in Ontario have inaugurated a campaign to arrest discharged soldiers still wearing uniforms.

Over thirty four dollars were realized from the "Whist" drive given by the ladies of the Red Cross at the Cosmopolitan Hotel on Tuesday night.

Members of Crow's Nest Encampment No. 8 are reminded of the regular meeting on Wednesday night next, when the officers for the coming term will be elected.

When we see a woman wearing a waist open in front on a cold, zero day, so that the V exposes her wishbone, we are reminded of the old saying: "Many are cold, but few are frozen."

British casualties reported during the month of November to and 129,089, divided as follows: Officers killed or died of wounds 1,152; men 24,292. Officers wounded or missing 3,557; men 81,168.

A valuable horse belonging to the West Canadian Collieries was killed near the entrance to the Greenhill mine on Tuesday. The animal took place same day, the last sad rites being administered by Jack McPhail.

Private Andrew Bower arrived home from the front on Wednesday morning, and was greeted by a large number of Pass citizens at the depot. Private Bower bears evidence of having done his bit in a left arm and shoulder, which are so shattered that it is yet doubtful whether or not the arm can be saved.

A father and son who enlisted in Nova Scotia in the 40th Battalion Canadians, came to England in the same boat and were both drafted to France in the 2nd Battalion Fighting side by side at Vimy, they were wounded by the same bullet, and each got his discharge in time to catch the same boat back to Canada.

Mr. W. T. Eady, of Calgary, last week end received a telegram stating that his son, Major Wallace J. Sharpe, who some time ago was decorated with the Croix-de-Guerre of France for his gallant work on the battlefield, has been very seriously wounded, being shattered with shrapnel and left leg amputated, and is dangerously ill.

Farrier Harry Smallwood, eldest son of Mr. and Mrs. Robert Smallwood, returned home from overseas last week end. Farrier Smallwood enlisted with the 13th at Pincher Creek, and has been considerable active-service in the trenches. Last spring he was sent back to England, suffering from shell shock. He is looking fairly well.

D. R. McIvor, Liberal candidate, was in town from Cowley on Monday.

R. S. Howe, of the Alberta hotels, paid a visit to Granum this week.

Love is a melody of the mind that swells the heart and knocks the stuffing out of the pocket-book.

Over two hundred thousand Poles in the United States have offered to fight for the land of their adoption.

Nearly six thousand women in New York City earn their livelihood as musicians or teachers of music.

J. C. LeMotte left for Calgary on Sunday night to report Monday morning with the 78th Alberta Infantry as a gunner.

Professor Francis entertained the audience at the opera house on Saturday night last with piano and vocal selections.

Scientists claim that a man has a larger vocabulary than a woman, but a woman uses hers twice as much to make up for it.

We know of a lot of folks who preach eternal happiness in the next world; and who go through this world with long faces.

As Blairmore has reverted to a village school district, nomination and election for trustees will not take place until the early part of January.

The 7,000 ton steamer Porsanger, the largest ocean going vessel constructed in Canada, and built for a Norwegian concern, was successfully launched last week.

A Frank woman made application last week for a Victory Bond, and in answer to the question on the blank as to the denomination desired, she filled in "Methodist."

William Harrison, of Lillie, received word the early part of the week from his son Charles, stating that he was leaving England for Canada. Mr. Harrison went overseas with the 192nd.

A Russian Jew wanted to become a Canadian citizen, and this is how he filled out three of the questions on his naturalization blank: Name—Joseph Levinsky. Born—Yes. Business—Kotten.

The term of office of the present school board expires on December 31st, and as the district has reverted to a village district a complete board of three members will be elected early in January.

Candidates for parliamentary honors in Ontario have received circulars from a Montreal house that is now doing a big business, offering to take a deposit from the candidates and have liquor sent to any address.

An order-in-council has been passed, increasing the separation allowance paid to wives and other dependents of soldiers below the rank of sergeant in the Canadian expeditionary force from \$20 to \$25 per month, beginning December 1st.

Mr. Hornbrook, deputy organizer for the Victory Loan campaign throughout The Pass, returned to Calgary on Monday night. Needless to say, Mr. Hornbrook was highly pleased with the result of the campaign under his direction. Before returning home, the captain and teams of the district tendered Mr. Hornbrook a banquet at the Cosmopolitan hotel, where after a sumptuous "feed-up," a programme of speeches, songs, etc., was carried out successfully.

H. Blake, of Livingstone, has been wounded in action.

E. Fisher, of Bellevue, is reported as injured in yesterday's casualty list.

ORGAN FOR SALE cheap. Will give easy terms if desired. Box E, Blairmore.

Mine Inspector Stevenson has taken up residence on Eighth Avenue north.
